PULMONARY REHABILITATION PROGRAM

IMPACTING QUALITY OF LIFE

At Holly Hall, we recognize that proper respiratory function directly impacts the quality of life and ability to conduct normal daily activities with ease. Our Pulmonary Rehabilitation Program is designed to bring continuity in pulmonary care from the acute hospital setting into the skilled nursing and rehab care setting under the direction of Dr. Rupesh Vakil.

“THE STAFF HELPED ME TO GET BACK TO THE QUALITY OF LIFE I WAS USED TO. THANK YOU.”

SUE | REHAB CLIENT

Our Pulmonary Rehabilitation Program features care and therapy designed to treat and manage respiratory illnesses such as:

- Emphysema
- COPD (Chronic Obstructive Pulmonary Disorder)
- Bronchitis
- Pneumonia
- Lung Disease
- Asthma
- Tracheostomy Care
- Secretion Management
- Primary Pulmonary Hypertension
- Pulmonary Fibrosis
- Other obstructive or restrictive pulmonary-related diseases and conditions

Our Pulmonary Program Includes:

- Initial and ongoing assessments from physical, occupational, respiratory and speech therapists
- Oversight by a board certified pulmonologist
- Extensive patient and family education
- Spirometry screening pre/post bronchodilator
- Six-minute walk/activity testing
- Case management and discharge planning
- Oxygen titration
- Rehabilitation with physical, speech, and occupational therapists

Our goal is to provide the medical expertise and personal support to help our residents add years to life and life to years.

For more information on the program, please contact us at 832.350.0836.
